WHO is ST?

ST was founded in 2008 in Mozambique as part of the J&J Group of companies. We are one of the market leaders specializing in transporting out of gauge ("OOG") cargo within Mozambique and neighbouring countries which include Zimbabwe, Zambia, Malawi, Tanzania, South Africa and the Democratic Republic of Congo.

In addition we have a fleet of specialized trucks which allow us to be a front runner in ground works and tipper transportation.

Our dedicated team combined with our years of experience contribute to our success in handling project cargo and general earthmoving equipment thus ensuring that our clients receive the highest level of service at a cost efficient price.

ST has been accredited with ISO and HSES certification for their excellence in the industry.
WHO is ST?

In 2015 - new semi tankers were acquired for transport of bulk fuels and other petroleum based products.

ST transport the following:

- Containerised cargo
- Break-bulk
- Bulk Loose
- Out of gauge
- Heavy cargo
- Liquid cargo (fuel)
Key Routes and Geographic Presence

Key Countries of Operation:

- Mozambique
- South Africa
- Zambia
- Zimbabwe
- DRC
- Malawi
Specialized Transport has a variety of trucks and trailers in order to handle multiple cargo types safely and effectively and include the following:

- Low loaders for all machine moving and all cargo that is over width / height / length / weight.
- Construction consumables which allow for extremely versatile loads. These loads are moved with our escort team which ensures on time and safe delivery every time.
- Combine trailers
- Heavy Haulage
- Project Cargo
We have a specialist’s approach to handling unusual, expensive shipments and our specialist handling services include:

- **Securing cargo**
- **Cargo protection & insurance** (can be arranged on request)
- **Transportation services**

We have a modern fleet of specialized trailers, which are capable of moving all types of difficult or awkward cargo. Whether you have one load or a complete project of abnormal loads to move we can provide the right vehicles and equipment to safely handle your goods whilst providing the most cost effective solution for every movement.
We arrange permits and escorts required for the movement of your goods providing you with unparalleled capacity.

ST has been an integral part in the movement of project cargo and equipment for various mines throughout Mozambique.

Please inform us in detail about the dimensions (length x width x height) cargo weight (in metric tons) and the services required.
ST Tankers provides a solid and reliable long distance road tanker service to our clients. Our dedicated team combined with our years of experience contributes to our success in road transport ensuring that our clients receive the highest level of service at a cost efficient price.

Our Fleet

Our truck/tractors and semi/tankers are modern that complies with all the latest safety specification and fitted with the latest overflow sensors and telematics technology, due to the nature of the tanker business we have also fitted breathalyzer to ignition to start the vehicle and onboard cameras.
Our Drivers

ST Drivers are highly trained, helpful and friendly, they meet all hazardous transport training and receive annual/bi annual refresher training to ensure our customers receives the best service.

- First aid training
- Firefighting training
- Dangerous goods training
- Defensive driving
- Loading & off loading procedure training
- Journey management training
Services

Tanker Division

ST Tanker Operations

In our operations, trained people, processes and technology that allow us to provide the solutions to provide our customers with quality service that can make a positive difference to their business. All our vehicles are monitored in real time, providing accurate and timely information on the movement of your cargo throughout Southern Africa.

LIVE TRACKING CAN BE MADE AVAILABLE TO CUSTOMERS
In conjunction with the J&J Group of Companies, ST has access to a Sub-Saharan road freight network allowing the swift and reliable movement of full, part and co-loads whether containerized or break bulk cargo.

**Container Transport**
All our trailers are fitted with twist-locks to carry single 20’ and 40’ containers, as well as 2x20’ containers.

**Break-Bulk**
All cargo is secured and covered with tarpaulins to protect the cargo from the elements.

**Dangerous Goods**
We are able to handle “dangerous goods” upon request. For us to evaluate the feasibility to handle your cargo kindly provide us with all details as per the International Maritime Dangerous Goods (IMDG) Code such as the IMO class, UN Number and Packing group.
Services | Tipper Services

Specialized Transport provides Tipper Services with 16 & 19 m³ variations.

ST is capable of hauling any aggregates (sand, stone, building rubble etc.) and various other products that requires tippers.

We undertake bulk transport jobs on a contract basis depending on the duration of the contract, quantity of products to be hauled and the duration by which the service has to be completed which will determine how many trucks and tipper combinations will be required.

Our services are available for the local market anywhere in Mozambique and our clients can enjoy peace of mind as we have onsite technician and operational staff to manage drivers and equipment.
Over the past years Beira port has become the most agile gateway to serve the Central Mozambique, Malawi, Zambia, Eastern DRC and Zimbabwe markets.

Beira logistics corridor has persisted in becoming the alternative for cost effective, fast and reliable transportation.

After dredging the channel and huge infrastructural investments Beira must be considered as an alternative to Durban and Dar es Salaam for shippers who need a fast, cost effective and no headache logistics solution in this part of the world to avoid congestion, escalating costs and unpredictability of nearby alternatives.
J&J Group saw the opportunity in Beira and continues to invest in the following areas...

We have:
• **Invested in our state of the art warehouses**

• **Invested in a state of the art inland container depot**

• **Invested in IT systems to guarantee you have full visibility of the flow of goods and the flow of information**

• **Invested in a state of the art, well maintained fleet with workshops in 4 countries**

• **Invested in people, our biggest asset, growing our number of hires by 15% in the last year.**

**Why use Beira?**
Thank you!
