

OCCUPATIONAL QUALITY, HEALTH AND SAFETY POLICY

Specialized Transport is a company that provides specialized road transport of general cargo, out of gauge cargo, fuel and tippers service.

ST has the objective of providing services that satisfy the clients needs through continuous growth, improving the quality of the service provided and reinforcing occupational health and safety requirements.

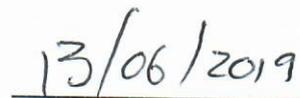

This will ensure the correct management of the Occupational Quality, Health and Safety Integrated Management System, respecting the requirements of ISO 9001 and ISO 45001 standards.

Based on the following principles:

- Search for excellence in the quality of the service provided, ensuring clients, employees and other interested parties satisfaction;
- Search for the continuous improvement of the Occupational Quality, Health and Safety Integrated Management System performance, ensuring compliance with the standards and other applicable requirements;
- Design, evaluate and disclose policies, targets and goals, and processes to all company interested parties, to ensure compliance with the legal requirements and other requirements applicable to the activities;
- Encourage and incentive our employees to ensure their safety and to identify, communicate, eliminate and reduce the hazards and risks identified in the workplace;
- Protect and ensure the safety, as much as possible, of employees, clients and thirty parties from injuries or damages resulting from the company's activities;
- Provide capital for the continuous development of the employees through internal communication and training;
- Emphasize the consultation and participation of the employees in the Occupational Quality, Health and Safety Integrated Management System activities;
- To become a member of our community, environmentally responsible.
